From: National Practitioner Data Bank**Re:** Response to Your Self-Query

The enclosed information is released by the National Practitioner Data Bank (NPDB) for restricted use under the provisions of Title IV of Public Law 99-660, the Health Care Quality Improvement Act of 1986, as amended; Section 1921 of the Social Security Act; and Section 1128E of the Social Security Act.

Title IV established the NPDB as an information clearinghouse to collect and release certain information related to malpractice payment history and professional competence or conduct of physicians, dentists, and other licensed health care practitioners.

Section 1921 of the Social Security Act expanded the scope of the NPDB. Section 1921 was enacted to protect program beneficiaries from unfit health care practitioners, and to improve the anti-fraud provisions of federal and state health care programs. Section 1921 authorizes the NPDB to collect certain adverse actions taken by state licensing and certification authorities, peer review organizations, and private accreditation organizations, as well as final adverse actions taken by state law or fraud enforcement agencies (including, but not limited to, state law enforcement agencies, state Medicaid Fraud Control Units, and state agencies administering or supervising the administration of a state health care program), against health care practitioners, health care entities, providers and suppliers.

Section 1128E of the Social Security Act was added by Section 221(a) of Public Law 104-191, the Health Insurance Portability and Accountability Act of 1996. The statute established a national data collection program (formerly known as the Healthcare Integrity and Protection Data Bank) to combat fraud and abuse in health care delivery and to improve the quality of patient care. Section 1128E information is now collected and disclosed by the NPDB as a result of amendments made by Section 6403 of the Affordable Care Act of 2010, Public Law 111-148. Section 1128E information includes certain final adverse actions taken by federal agencies and health plans against health care practitioners, providers, and suppliers.

Regulations governing the NPDB are codified at 45 CFR part 60. Responsibility for operating the NPDB resides with the Secretary of the U.S. Department of Health and Human Services (HHS), and HRSA, Division of Practitioner Data Banks.

Reports from the NPDB contain limited summary information and should be used in conjunction with information from other sources in granting privileges, or in making employment, affiliation, contracting or licensure decisions. NPDB responses may contain more than one report on a particular incident, if two or more actions were taken as a result of a single incident (e.g., an exclusion from a federal or state health care program and an adverse licensure action). The NPDB is a flagging system, and a report may be included for a variety of reasons that do not necessarily reflect adversely on the professional competence or conduct of the subject named in the report.

All information received from the NPDB is considered confidential and must be used solely for the purpose for which it was disclosed. Further, ANY PERSON WHO VIOLATES THE CONFIDENTIALITY PROVISIONS AS SPECIFIED IN TITLE IV OF PUBLIC LAW 99-660, AS AMENDED, IS SUBJECT TO A CIVIL MONEY PENALTY OF UP TO \$11,000 FOR EACH VIOLATION. Subjects of reports who obtain information about themselves from the NPDB are permitted to share that information with anyone they choose.

If you require additional assistance, visit the NPDB web site (<https://www.npdb.hrsa.gov>) or contact the NPDB Customer Service Center at 1-800-767-6732 (TDD: 1-703-802-9395). Information Specialists are available to speak with you weekdays from 8:30 a.m. to 6:00 p.m. (5:30 p.m. on Fridays) Eastern Time. The NPDB Customer Service Center is closed on all Federal holidays.

Description of Subject's Act(s) or Omission(s) or Other
 Reasons for Action(s) Taken and Description of Action(s) Taken
 by Reporting Entity:

Dr. Paul Ziomek's clinical privileges as a Primary Care physician at the Charles George VA Medical Center, Asheville, NC were summarily suspended on 3/11/09 following a fact finding by his supervisory physician indicating reasonable cause for concern regarding Dr. Ziomek's quality of care. On 4/7/09, a medical center Summary Review Board reviewed the allegations and patient care records and found evidence to support the following: 1) misuse of an electronic health care record template- inappropriately recording performance of a fundoscopic examination that was not performed; 2) failure to document attribution for nursing notes copied, and 3) substandard care for 11 patients- inaccurate or untimely workup of presenting complaints; inadequate documentation or failure to perform appropriate assessment; failure to timely follow-up abnormal physical examination and abnormal laboratory results; failure to follow-up with appropriate laboratory studies following medication changes. Dr. Ziomek's employment was terminated by the Charles George VA Medical Center effective 4/30/09 and his clinical privileges and medical staff appointment were revoked. In its report of 9/29/09, an Appeals Board reviewed the evidence cases and sustained the findings in it of the Summary Review Board for inappropriately recording performance of a fundoscopic examination and failure to document attribution for nursing notes copied. The Summary Board determined there was substandard care for 5 of the 11 patients reviewed. The Appeals Board concluded the allegations of misuse of a documentation template and failure to document attribution of nursing notes did not appear to significantly endanger patients. The allegations regarding the care given the 5 patients did fail to meet generally accepted standards of clinical practice as to raise reasonable concern for the safety of the patients. The Appeals Board concluded that Dr. Ziomek did not meet the accepted standard of care and that his actions constituted professional incompetence or misconduct.

**D. SUBJECT
STATEMENT**

If the subject identified in Section B of this report has submitted a statement, it appears in this section.

Date Submitted: 12/02/2009

An underhanded and likely illegal persecution by a politically motivated colleague resulted in the demise of my stint at the VA. Despite being well liked by patients and other colleagues and having received an exemplary annual review with commendation for my more than 1500 patient encounters (some of which were quite complex), I was sucked into a maelstrom of spite. Please read the complaint

against me closely. I was found deficient in five instances of not having documented a visit or ordered a lab or Xray to my "peers'" standard. No poor outcome or calamity resulted, only theoretical or potential consequences might have resulted. For example, in one instance I did not order a TSH on a veteran who was under the care of an endocrinologist. In another I did not order LFT's on someone who was started on a lipid lowering statin (an issue which is completely at the discretion of the physician). The issues regarding templates were clerical in nature and never brought up until this fact finding mission retrospectively reviewed charts going back months in time. Imagine being reported to the NPDB for such trivialities in 5/1500, or one in 300 encounters. Please note that I have 16 years of practice experience (19 if you count residency) with no previous claim of inadequacy or malpractice. Surely this database is reserved for seriously egregious conduct. Mr. NPDB Secretary, I ask you to rescind this report as without merit. If the VA has its way, soon this database will be littered with accounts of physicians who part their hair on the wrong side or wear the wrong deodorant.
